Professional Summary

I'm a Results-driven Full Stack Web Developer with a B.Sc. in Computer Science and hands-on experience building secure, database-driven web applications using PHP, Laravel, MySQL, JavaScript, AJAX, Bootstrap, and Git. Passionate about developing clean, scalable applications and continuously expanding my technical skills.

Core Competencies

Backend Development • Full-Stack Development • OOP • Database Design • REST APIs • Authentication • Responsive Design • Git

Technical Skills

Languages: PHP, JavaScript, HTML5, CSS3

Frameworks/Libraries: Laravel, Bootstrap, jQuery, AJAX

Database: MySQL

Tools: Git, GitHub, XAMPP, VS Code, Antigravity

Projects

Campus Find

- Designed and developed a full-stack lost-and-found platform using PHP, MySQL, AJAX, jQuery, and Bootstrap.
- Implemented secure authentication and role-based access for students and administrators.
- Built CRUD operations, search functionality, and a secure relational database using PDO prepared statements.
- Created responsive interfaces to improve user experience.

Connect Pro

- Developed a service marketplace with dedicated provider dashboards.
- Implemented provider search, booking management, and status tracking.

- Built secure backend functionality using PHP, MySQL, and object-oriented programming.

Education

B.Sc. Computer Science

Redeemer's University — 2024

Certifications

Software Development Certificate — Moat Academy (2026)

Completed a 3-month intensive software development programme covering PHP, MySQL, JavaScript, HTML, CSS, Bootstrap, Git, and modern web development practices through hands-on projects.

Achievements

- Built multiple full-stack web applications from concept to deployment.
- Designed secure authentication and authorization systems.
- Implemented relational databases and CRUD operations using PHP and MySQL.
- Applied Git and GitHub throughout the software development lifecycle.
